SUMMARY

Applying empathy and perspective through experience and interaction design

EXPERIENCE

UX Lead - Credit

Piramal Finance

06/2024 - Present

- Product Strategy & Scoping: Institutionalized an MVP scoping framework ("Top 5 Wins") to balance ambitious North Star UX with rapid GTM timelines, driving direct alignment across Business, PM, and Engineering leadership
- AI Integration & Adoption: Scaled AI adoption in Credit Decisioning and Fraud Analysis from 13% to 67% by embedding actionable AI risk insights directly into core decision workflows rather than isolated views
- Fintech TAT & Interaction Optimization: Architected 0-to-1 underwriting workflows for Microfinance (reducing interactions from 40-50 clicks to 7-8 clicks), while cutting Personal Loan sanctioning from 1.5 days to 3 hours and Used Car Loan TAT from 3 days to <6 hours
- High-Fidelity Code Prototyping (Governance): Pioneered a team-wide mandate to deliver interactive, coded HTML prototypes alongside Figma handoffs using AI-assisted workflows—drastically accelerating user testing accuracy and securing rapid executive buy-in through live interaction
- Design System Governance & Scale: Scaled multi-platform design systems with an AI-driven design-to-code pipeline, enabling UX designers to push production components directly to GitHub and saving 4-5 frontend engineering days per cycle
- DesignOps & People Leadership: Mentored a pod of designers through structured daily standup governance, in-flow design critiques, and personalized monthly skill-gap roadmaps to drive continuous delivery and design maturity
- 0-to-1 Rapid Product Delivery: Architected and shipped an end-to-end production module independently using AI-assisted engineering workflows (Claude Code), bypassing traditional frontend sprint dependencies to cut time-to-market from 2-3 months down to just 1 week

Senior UX Designer

Piramal Finance

06/2023 - 05/2024

- Enterprise Modernization & Cost Optimization (SFDC Sunset): Designed and launched Credit Central, a centralized underwriting platform that fully replaced legacy Salesforce infrastructure—revoking external SFDC licenses across the underwriting org to save ₹10 Cr annually
- Phased Platform Architecture (Legal Verification): Architected the legal verification redesign by first deploying a rapid MVP with a custom rich text editor to eliminate immediate vendor bottlenecks, followed by a scalable "Structured Core, Flexible Shell" North Star system that cut verification TAT by 70%
- Fintech Co-Lending at Scale: Designed the end-to-end co-lending partner portal managing ₹2,700 Cr+ in loan assets, establishing real-time data sync and multi-institution approval workflows across partner ecosystems
- Risk & Fraud Operations (FCU Workflow): Overhauled document verification and risk-flagging interfaces for the Fraud Control Unit (FCU), enhancing document anomaly detection accuracy while reducing case review turnaround time from 3 days to 1 day

KEY ACHIEVEMENTS

- AI Integration Success**
Increased AI adoption in workflows from 13% to 67%, improving risk analysis.
- Workflow Optimization Achieved**
Reduced loan processing time from 5-6 days to 2 days by optimizing workflows.
- Cost Optimization Implemented**
Saved ₹10 Cr annually by replacing external licenses with in-house solution.
- Rapid Product Delivery**
Cut time-to-market by 70% through rapid product delivery using AI-assisted workflows.

EDUCATION

Bachelor's in Computer Engineering

Gujarat Technological University

GPA
6.0 / 10.0

SKILLS

- User Interface User Experience
- Design Research
- Human-Centered Design HTML
- CSS Wireframing Usability Testing
- Scenario & Persona Development

INTERESTS

- Basketball
- Photography
- AI
- Sneakers

EXPERIENCE

UX Designer

Piramal Finance

📅 02/2022 - 05/2023

- Cross-Functional Workflow Optimization (CPA-Legal-Tech): Mapped and designed end-to-end multi-persona workflows across 7 operational user types (CPA, Legal, and Technical teams), streamlining handoffs and reducing overall loan processing TAT from 5–6 days to just 2 days
- Micro-Interaction & Document Processing Speed: Redesigned verification and sampling interfaces for vendors and internal samplers, cutting document evaluation time from 15–20 minutes to under 30 seconds per document across high-volume, multi-applicant loan applications (12–50+ documents per case)
- Enterprise CRM Modernization (Project Vaani): Designed Vaani, an in-house customer service CRM that replaced legacy Salesforce infrastructure for 75+ customer service representatives, saving ₹4 Cr annually while establishing an intuitive, high-velocity servicing interface

Sr. Product Designer

Vahak

📅 04/2021 - 02/2022

- Participated in creating and implementing designs into working modules in India's largest transport Marketplace. Worked closely with engineers, product managers, and analysts to give a design loved by users
- Design a user Dashboard for the company's 1 Million users
- Made some major changes to the existing app based on the data metrics from the existing design
- Created Landing Pages for retention of customers
- Redesigned Homepage in terms of conversions rather than App downloads

UX/UI Designer

Ansh Enterprises

📅 06/2018 - 03/2021

- Completed a project of an online shopping app for shoes and clothes
- Designed a Repairman App that focuses on various services such as cleaning, repairing, etc
- Designed an app for a university with all the necessary information needed for the admission
- Completely Redesigned agent portal of big Insurance Agency
- Completely Redesigned Economic research desk for a bank with millions of users everyday

UX/UI Designer

Pandit Ventures Pvt. Ltd

📅 09/2017 - 06/2018

- To create viable Landing Pages using Unbounce and HTML/CSS that leads to conversions for millions of users every month
- Create Standees and banners for the participation of conferences
- Design a mobile app for astrology that bridges the gap between astrologers and its users

UX/UI Designer

AppsOnRoll TechStudio

📅 10/2014 - 12/2016

- A complete product design of All Deals app.(UX UI and illustrations)
- Created printable flyers and brochures for circulating around the whole city
- Worked with Engineering team to build the product
- Created social media marketing graphics and newsletters
- Tracked the performance of the design and made changes to it
- Redesigned the All Deals app with brand new colors and approach
